

Greenpoint Environmental Forum (Panel Discussion Series)

Greenpoint Waterfront Association for Parks and Planning

Greenpoint Waterfront Association for Parks and Planning received \$12,400 to organize and conduct four public panel discussions in partnership with local ecological and environmental advocacy organizations. The discussions will be tailored to local environmental concerns, including water and soil quality, land use regulations, and community greening. Each session will provide an opportunity for residents to learn about local environmental issues and the organizations engaged in them, and to participate in community greening activities.

Grant Amount

\$12,400

Value of Grantee & Partner Contributions

None

Location

Greenpoint

Project Goals

- Educate the community on environmental issues
- Promote the advocacy and activities of other local environmental organizations
- Provide residents the opportunity to participate in related hands-on events
- Allow reps to gain volunteers, learn which environmental issues the community is most concerned about, and differentiate their mission

Project Partners

- Newton Creek Alliance
- Newton Creek Monitoring Committee
- Neighbors Allied for Good Growth
- Friends of Bushwick Inlet Park
- Friends of Cooper Square Park
